

Remon Awad Kamel

Front-End Developer

El-Obour, Cairo, Egypt | e-mail | Tel(+20)01226750547 | [LinkedIn](#) | [GitHub](#)

PROFILE

Third-year Computer Science student at El Shorouk Academy with hands-on experience in Python and C# projects and a strong foundation in C++ for problem solving and competitive programming. Skilled in Object-Oriented and structured programming, with experience building responsive interfaces using HTML, CSS, and Bootstrap. A continuous learner aiming to grow from React Front-End Development into UI/UX and Full-Stack Development while building user-friendly solutions to real-world problems.

EDUCATION

El Shorouk Academy | Bachelor's Degree in Computer Science | GPA : 3.4

2024 – 2028

EXPERIENCE

React Front-End Development Trainee — Digital Egypt Pioneers Initiative (DEPI)

- Applying modern front-end development practices through practical tasks and projects.
- Collaborating on team-based projects and gaining experience with Git and GitHub.

PROJECTS

Hospital Management System| Python | NTI Final Project

[GitHub](#)

Developed a console-based hospital management system in a team, implementing patient, doctor, appointment, pharmacy, billing, and emergency modules. Strengthened practical skills in Python, OOP, input validation, and menu-driven application design.

Hospital Management System| C# workshop| IEEE Final Project

[GitHub](#)

Developed a console-based hospital management system as a final project after completing a C# programming course. Applied OOP principles and strengthened skills in C# programming, software design, and structured application development.

Simple Personal Portfolio Website | HTML - CSS - Bootstrap

[GitHub](#)

Developed a responsive personal portfolio website as part of a Web Programming course, using semantic HTML and Bootstrap with interactive UI elements. Applied responsive web design principles and strengthened skills in building structured, user-friendly web interfaces.

SKILLS

TECHNICAL SKILLS

Languages: C++,C#,Python,C **Web Development:** HTML5,CSS3,Bootstrap,Responsive Web Design

CS Fundamentals: Problem Solving with C++ , Object-Oriented Programming (OOP), Data Structures

Tools: Git, GitHub,VisualStudio,VS Code **Languages:** Arabic (Mother Tongue) , English (B1 Level)

SOFT SKILLS

Teamwork, Communication, Leadership, Adaptability

COURSES & CERTIFICATES

• Python Programming – NTI | 2025

[Certificate](#)

Covered Python fundamentals, problem solving, functions, data types, control structures and OOP concepts.

• C# Programming Workshop – IEEE | 2025

[Certificate](#)

Covered C# programming fundamentals and OOP, applying the concepts through a Hospital Management System project.

• ECPC Participation Certificate | 2025

[Certificate](#)

Participated in competitive programming training and problem-solving practice as part of preparation for national-level contests.
